

Oneida County Indigent Assistance

Non-medical services provided by Oneida County include only indigent disposition of the deceased as required by Idaho Statute § 31-3412.

The Charity and Indigent Fund Levy was repealed during the 2022 Legislative session to provide property tax relief to Idahoans. With the repeal of this levy counties no longer receive funding for medical indigent services.

Oneida County will continue to support annually, as funds are available and upon approval of the Board of County Commissioners, other entities in Oneida County providing assistance to Oneida County indigent persons.
