BLM: Blaine Newman gave thanks to the county for the good work they have done on the BLM roads and indicated that some money was still available for future work, pending the counties availability.

The Malad Mountain communication site in the west hills has a small section of road that needs maintenance on a limited basis and whereas this road is used by several agencies, Blaine indicated that it would be appropriate for each of these agencies to help with the cost. Commissioner Tubbs indicated that whereas the county has an interest in this location because of the various departments' communications repeaters, that the county would do their share at helping to maintain the road.

Kim Evans requested clarification on the county road in the Daniels area that leads to what is known as the Turkey trail. It was noted that this road, listed as 14000 North on the county inventory, runs into Private land but doesn't go all the way through to the Public lands. His concern is that it has been a public access to the BLM ground in the past but with new ownership he has seen gates going up and fears that there will be some major problems now that we're close to hunting season and many hunters will want to use that access that has always been there.

The Commissioners indicated that the County prosecutor will need to be contacted for advisement on the issue.

Road & Bridge is applying for scholarship funding for members of their department to help defray the cost of tuition for some of the training classes they attend.

Commissioner Daniels made the motion to approve the scholarship applications.

Commissioner Tubbs seconded and the motion carried.

Stone land fill: All issues identified in the previous DEQ visit have been corrected and a new gate with new locks has been installed. Kay Harris indicated that he is willing to continue helping with the land fill but reported that he will be traveling more frequently and would understand if the county wanted to find another person to take over the operation.

The part time Weed spraying person is no longer needed. Road and Bridge has picked him up for a couple of weeks while they finish a few of the larger projects.

Commissioner Tubbs signed off on the action giving approval as the department supervisor.

The cost estimates for the annex building interior remodel continue to increase therefore the commissioners indicated that the job should be put out for competitive bid. Commissioner Daniels will see that the notice is put in the paper.

The airport has a smaller out building that needs to be removed. There is no real purpose or need for it at this time or in the foreseeable future. An advertisement will be posted in the paper for this property. Commissioner Daniels will post this notice in the paper.
